25X1A the appropriate security checks and DDO indices checks should be made". [] also recommended "that [] should retest each personality and company in its stable of 'referrals' at the first opportunity". The memorandum also recommended that official contact with Wilson be stopped immediately until the operations and security caveats were lifted. 25X1A

3. Upon cursory examination, it would appear to me that (a) this kind of situation could occur again today because of the lack of a central bigot list and because there are no codified procedures which are foolproof, and (b) solutions to the problem may be complicated. I would recommend that this subject be discussed by you, the DDA and myself at your convenience.
